Open Airways For Schools- Training Opportunity!

OPEN AIRWAYS
FOR SCHOOLS

The American Lung Association's Open Airways For Schools® is a school-based curriculum that educates and empowers children through a fun and interactive approach to asthma self-management. It teaches children with asthma ages 8 to 11 how to detect the warning signs of asthma, avoid their triggers and make decisions about their health. Children who complete the Open Airways For Schools program should be able to:

- Take steps to prevent asthma symptoms
- Recognize the symptoms of asthma when they first occur, and carry out appropriate management steps
- Discuss and solve asthma-related problems with parents, medical professionals, teachers and friends
- Feel more confident about taking care of their asthma on a daily basis

Training Dates: **scholarships available!

Friday, June 21st- Philadelphia, PA

Thursday, July 18th- Camp Hill, PA

ASTHMA BASICS

The American Lung Association's Asthma Basics course is a free one-hour interactive online learning module designed to help people learn more about asthma. This course is ideal for frontline healthcare professionals, such as school nurses or community health workers, as well as individuals with asthma, parents of children with asthma, and co-workers, friends and family who want to learn more about asthma. Asthma Basics is available in English and [Spanish](#).

This program will teach participants to:

- Recognize and manage triggers,
- Understand the value of an asthma action plan, and
- Recognize and respond to a breathing emergency.

NOW AVAILABLE: In-person version of Asthma Basics available for community or school education. Email Shelly Cree for more information! shelly.cree@lung.org
